

CONGRESS.
In the Senate Wednesday, Mr. Dix of New York, presented a series of Resolutions from the State of New York, in favor of Mr. Whitney's project of a Railroad to the Pacific.

Mr. Dickinson of New York, also presented resolutions from his State in favor of equal newspaper postage.

On motion it was ordered that the usual committees be chosen by the Senate on Monday.

Mr. Hannagan of Indiana, introduced a bill for the relief of the heirs of John Paul Jones.

It was passed immediately, and sent to the House.

In the House, Nathan Sergeant was chosen Sergeant-at-Arms, and Mr. Horner, Doorkeeper.

This makes the federal organization of the House little.

Thursday, Dec. 8.—In the Senate, various petitions were presented.

Mr. Giles of Conn. announced the decease of the late senator Mr. Huntington, in a most eloquent and appropriate speech.

A serious of resolutions, as usual on such occasions, was adopted.

The Senate adjourned over to Monday next.

The House previous to its close yesterday, proceeded to elect a Postmaster. Whole number of votes 221. J. C. McCormick had 110; Mr. Johnson, the present Postmaster, received 111, and was declared re-elected.

Mr. Collamore offered a resolution for the appointment of a Joint Committee to superintend the expenditures of money appropriated for the purchase of books for the Library, pending which the House adjourned.

To day a resolution was passed, appointing several chaplains from different denominations to attend to the religious services of the session.

A debate sprung up in the House on motion to appoint two Committees on Commerce, one on Domestic Commerce, the other on Foreign.

A committee on Domestic Commerce was strenuously opposed as tending to Federalism and Centralization.

The motion was finally withdrawn.

These proceedings we gather from the Express of the Boston Daily Times.

Congress having adjourned from Thursday to Monday, we have nothing of great interest from Washington.

The N. Y. Herald writes the democratic caucus "agreed on Gen. Cass as chairman of the military committee of the senate, and Benton, Jeff. Davis and Dix for members; Foreign Relations, Mr. Sevier; Judiciary, Gen. Ashley; Public Lands, Mr. Brewster; Territories, Mr. Douglas; Finance, Mr. Atherton, chairman. Mr. Dickinson and Mr. Hunter also on the committee. The other committees are pretty much the same as last years."

Mexico.—Judge Breckenridge concludes a letter on our relations with Mexico in this language:—

"If we establish a seaport at San Francisco and Monterey, ought to have land for a town to stand on, and we must have some back country, and this would necessarily lead to the occupation of the valley of the Sacramento and San Joaquin, which rivers unite to form the bay. Here is a territory as large, at least, as the six New England states. The acquisition of these ports, and necessary trimmings, would be for the benefit of northern shipping, commerce and whaling. I go further, and say, without hesitation, that the acquisition of the whole of Mexico would open an immense field to the free labor of the north and the south, but especially to the former; it would open a vast market for our manufactures, stimulate commerce and enterprise, and increase the quantity of the precious metals. The trade of the Rio Grande alone, and the northern Mexican States, would be felt throughout the great valley of the Mississippi, equal in surface to China, and likely to contain twenty millions in less than twenty years."

Mexico. Col. Winkop, of the first Pennsylvania regiment, had been appointed civil governor of Jalapa, and his first orders were issued on the 8th of November. He encourages the merchants to reopen their stores, and promises them protection, but prohibits the sale of ardent spirits by retail. The property of the Mexican authorities is made responsible for all offenses made by the population. The Mexican civil and judicial authorities continue in the exercise of their functions, and all disputes among the people are to be settled by them.

RECEPTION OF GEN. TAYLOR. All the arrangements for his reception in New Orleans passed off well on the 3d. In the evening he visited the theatre. On the 4th the presentation of the sword voted by the Legislature of Louisiana took place. It was an interesting ceremony. The sword was presented by gov. Johnson, in a long, eloquent and enthusiastic speech. Gen. Taylor made a short and appropriate reply. On the morning of the 5th he left in steamer Missouri for Memphis.

When he landed the Mayor invited him to become the guest of the city. General Taylor briefly and appropriately replied. He then proceeded to the Cathedral. Bishop Blane appropriately addressed him; old Rough and Ready made an eloquent reply. The St. Charles was brilliantly illuminated in the evening. In front of the gentlemen's parlor was a transparency of General Taylor, in the old brown coat, with the motto, "Little more grapes, Captain Bragg."

THE HEART.—This note with the human heart. It contains a thousand delicate strings; if you break one of which, it is not in the power of man to restore it again. If you are loved and cherished, be not indifferent. If you cannot repay that love, treat it not with contempt. There are thousands reaping in sorrow and solitude that a word or a look might have saved from sorrow, and made happy.

COL. FREMONT'S TRIAL. On Wednesday Capt. Stockton read a long remonstrance against the decision of the court, insisting that his own conduct was indirectly under consideration and judgment, and that, if he testified at all, he should be allowed to tell the whole story, and in his own way. The court yielded, and Captain Stockton went on with his narrative, not only that he was authorized to do all he had done and caused to be done in California, but that his authority was distinctly recognized by General Kearney. His narrative was not completed when the court adjourned, but was continued through Thursday.

GEN. TAYLOR. The reception of the gallant old soldier at New Orleans on the 3rd was a gallant affair. He was brought up from the barracks on a steamer, landed at the first municipal wharf, and was escorted through the city by an immense procession amidst the display of flags, and the firing of cannon. The old white horse was there. The corporation dinner was served at the St. Charles Hotel, which was brilliantly illuminated, and fire works were let off in the Place d'Armes and Lafayette square. "So should desert in arms be crowned."

ACTION OF WHITE LEAD WITH OIL.—Every one may have noticed that paint in which white lead is mixed, after it has been applied a while, cracks, and scales off. This is explained by the fact that exerts a chemical action on oils, in consequence of which the oil, when in combination with the lead-continues to harden, until at last under the various changes of the atmosphere, it becomes brittle, breaks into scales, and flakes off. On account of this action, it is thought that no white lead should be used in the "priming" coat, in painting buildings or articles which are not designed to be white. Black paint is more durable than white. This may have been noticed where as on guide-boards, &c., black letters have been formed on a white ground. The black remains perfect long after the surrounding parts have mouldered away, leaving the letters standing in "relief." This is explained as follows:—

The black paint is made chiefly of lamp black which substance is nearly pure carbon, and is known to be one of the most imperishable substances in nature—that it is not changed by the vegetable combination with which it is used as paint, in consequence of which slightest film of the compound is a most durable protection against the destructive influences of the weather. White lead will not scale off, unless varnish has been mixed with it, or the ground on which it is put, be either suffused with grease or resin, as is often the case with pine wood. A preventative for white lead paint turning yellow in dark situations would be a fortune to the discoverer.

The gaily trimmed aprons, so much in vogue a few years ago, have been revived in England, where they are found to be useful in conferring a smart and gay appearance to a morning dress of the plainest material. The materials most preferred, are silks of various shades and patterns. They are elegantly trimmed with the newly introduced fancy gimps, with ruffles of silk or ribbon, in well assorted colors, or with black or white lace.

AMERICANITY.—Agriculture, says Socrates, is an employment the most worthy the application of man the most ancient and the most suitable to his nature; it is the common nurse of all persons, in every age and condition of life; it is a source of health, strength, plenty and riches, and of a thousand other pleasures. It is the mistress and school of sobriety, temperance, justice, religion, and in short of all virtue, civil, and military.

Had all the democratic members from Mississippi been on hand, the whigs could not have chosen a Speaker, and the democrats might have succeeded in reorganizing the house.

There is this difference between happiness and wisdom. He that thinks himself the happiest man is really so; but he that thinks himself wisest is generally the greatest fool.

A LITTLE KNOWLEDGE NOT DANGEROUS.—Thomas Campbell once truly said that if we were to compare the value of much with that of little learning, there is no concession in favor of the much that we would not willingly make. But in comparing small acquisitions with none at all, it appears equally absurd to consider a little learning valueless, or even dangerous, as some will have it, as to talk of a little wealth or health, or cheerfulness, or a little of any other blessing under heaven, being worthless or dangerous. To adjust any degree of information, because we cannot grasp the whole circle of sciences, or sound the depths of erudition, appears about as sensible as if we were to shut up our windows because they are too narrow, or because the glass has not the magnifying power of a telescope. For the smallest quantity of knowledge that a man can acquire, he is bound to be contentedly thankful provided that his fate slurs him out from the power of acquiring a larger portion; but whilst the possibility of further advancement remains, let him be as proudly discontented as he pleases with his little learning.

At the annual meeting of the Baptist Church in Paris held at the Meeting-house on Paris Hill on Saturday, the 18th of Dec, 1847, the following resolution was passed unanimously, and voted to be published in the Oxford Democrat.

Resolved, That while we concede to all men the right to express their views of political men and political measures on all suitable occasions, we disapprove of introducing political matters into religious meetings, and especially do we disapprove of the introduction and passage of the Resolution by the Baptist Association held in Paris in Sept. last, which was as follows:—

"Resolved, That we look with abhorrence on the present unchristian war in which our nation is engaged, regarding it as disgraceful to a christian people, and that we will by prayer and lawful measures seek its speedy termination."

ALFRED ANDREWS, Moderator.

SITTING OF BLOOD.—It should be remembered, when the stream of life is encumbered with morbid humors, that its volume or quantity is increased, the blood-vessels are filled to overflowing, hence a rupture of those which terminate in the lungs, ending in blood, consumption, and other dreadful complaints. Wright's Italian Vegetable Pills are certain to put an immediate stop to spitting of blood; because they take out of the circulation those useless and corrupt humors which are the cause not only of the bursting of blood-vessels, but also of every morbid incident to man. From three to six of said Italian Vegetable Pills taken at night on going to bed, will in all cases give immediate relief, and if repeated a few times, will most assuredly restore the body to a state of sound health.

Be aware of counterfeits of all kinds! Some are coated with sugar others are made to resemble in outward appearance the original medicine. The safest course is, to purchase from the regular agents only, one or more of whom may be found in every village and town in the State.

The genuine for sale by CHARLES H. CHICKER, Paris Hill, Charles Durell, Oxford; J. H. Wardwell, Randolph, John Blake & Co., Tanners, Knobs, Crocker, Bethel, Jefferson College, Lyngmore, Hiram Hings, Hartford Calum Besse, Woodstock, and J. Howe, New York.

New England Office, 108 Tremont Street, Boston.

TO DRUGGISTS AND DEALERS IN MEDICINE. DR. WISTAR'S BALM OF WILD CHERRY.

This celebrated and infallible remedy for the cure of Consumption, Asthma, and Liver Complaint, was discovered some six or seven years ago, in the city of Philadelphia, the residence of one of the most distinguished physicians that ever lived. Since that time it has, by its own merits, been rapidly, surely, and safely working its way through the opposition of quacks and counterfeits, until, by its true value and intrinsic excellence, it has gained for itself a most enviable popularity, and established itself in the confidence of an intelligent and enlightened public from one end of the continent to the other. The testimony of thousands who have been relieved and cured by this valuable article, will show that it stands unrivalled—at the head of all other medicines for the cure of diseases for which it is recommended.

The genuine Dr. Wistar's Balm of Wild Cherry is now for sale by all apothecaries, and all respectable dealers in medicine, in all large cities, and all important towns throughout the United States, Canada, and British Provinces.

For sale by J. K. HAMMOND, Paris, and ASSEL FIELD, South Paris; also by Druggists and Agents generally.

The following persons of the highest respectability are a few more that have added their valuable testimony of the wonderful virtues of BROWN'S SASSAPARILLA AND TOMATO BITTERS:

John Wilcox of New Bedford, cured of a dreadful tumor of three years' standing, after taking all other preparations in vain; likewise his elder son used it with the happiest results for the same purpose.

George Bliss, Esq., of New Bedford, used it for general debility, loss of appetite, &c.; by the use of two bottles was entirely cured.

Miss S. J. Smith of Charleston, was cured of a dyspepsia by using two weeks.

Mrs. E. Williams has been cured of indigestion and dyspepsia by using two bottles.

Benjamin Whitney of Lynn, cured of indigestion and dyspepsia by using two bottles. It will always speak for itself; one trial is sufficient to satisfy any one of its superior merits over all other purifiers or alteratives.

For sale by J. K. HAMMOND, Paris, and ASSEL FIELD, South Paris; also by Druggists and Agents generally.

Webster's Dictionary
Just published by G. & C. MERRILL, Springfield, Mass., in one Vol., Crown Quarto, thoroughly revised and greatly enlarged by the addition of more than four hundred quarto pages of original work, making it a complete Dictionary of the English Language. It contains a larger amount of matter than any other volume ever published in the country; and being the result of more than thirty years labor by the author and editors, at the low price of \$2.50, it is believed to be the largest, cheapest, and nearest work of the kind ever published.

The subscriber is agent for the sale of the work in this County, and hopes to afford all who wish to purchase, an opportunity, by a reasonable call. No family is so poor that they can afford to do without it. ANSON HUBBARD.
